Wasabi Soy Ranch	•			•	

Gluten: Popcorn is naturally gluten free, so most flavors are gluten free unless the flavor contains a cookie mix-in.

Soy: Soy lecithin is present in many flavors. It is a highly processed fat with very little protein remaining, but regulatory bodies still require it to be declared as a soy allergen.

Please note: our flavors are made in a facility that also handles peanuts, tree nuts, dairy, soy, and wheat. If you have a severe allergy, please ask a team member in-store before ordering.

Clusters • Freshly popped in small batches
